

LINK & LEARN SESSION

Target audience

The introduction course will appeal to those who are new to the industry, or who are employed in areas unrelated to the re/insurance process, such as analysts, accountants, HR, training and facilities. If delegates wish to know more about the insurance product we will talk about this as well as exploring some, but not all, commonly used jargon. Graduates, young professionals and delegates entering from other industries will find this course of value.

Learning objectives

On completion of this session delegates will have a basic knowledge of the London Market and legacy within it and be given encouragement to think about how the types of and classes of business underwritten are relevant. There will be talk about the various roles of the London Market participants and time spent on thinking about individuals participation in the legacy market, recognising the importance of the London Market. We will build on delegates basic understanding of how the historic London Market issues affect us now as both people and corporations.
